READY-CUT SUMMER COTTAGES

Distinctive

because built with

GENUINE "LOG CABIN" SIDING
RED CEDAR "LOG CABIN" SIDING

A TIGHT SMOOTH WALL INSIDE

Halliday Ready-Cut Summer Cottages have an individuality all their own because we use superior material in every part of their construction. All lumber, from floor to roof, is new, clean, and of unusually good sound quality. Your Halliday cottage when finished will present a smart, neat appearance inside and out; the envy of your neighbors. One customer writes: "I might add that the cottage was very satisfactory and is easily the nicest one on our lake. We are very pleased with it." Hundreds of others testify to the high quality of materials, the fine appearance of Halliday cottages and to the completeness of our service.

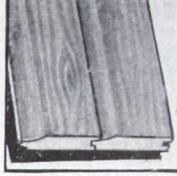

GENUINE RED CEDAR "LOG CABIN" SIDING
For distinctive, truly rustic appearance we recommend our cedar "log cabin" siding for summer cottage walls. This is manufactured exclusively for us in British Columbia mills, being run from genuine west coast red cedar boards 1½" thick. The picture shows actual dressed size and finished thickness; sample will be sent on request. West coast red cedar is chosen for its well known durability and natural weather-resisting qualities. It is comparatively light in weight, yet strong and easy to work.

A TIGHT SMOOTH WALL INSIDE

Our "log cabin" siding is finished with a half-inch shiplap joint which makes a tight, weather-resisting wall, presenting a smooth, finished surface inside. The natural reddish color looks clean and smart inside, and the "woody" aroma is a delight to the senses. Siding contains sound knots which add to the rustic appearance. We send brown wood stain to finish the outside, or a clear varnish may be used at small extra cost, and has the advantage of displaying and emphasizing the natural grain of the wood.

COVE SIDING SUITABLE FOR PAINT FINISH

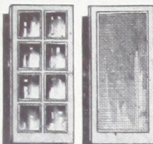

For those who prefer to paint their Summer Cottage we send cove siding (sometimes called novelty siding) at a reduction in price. This material is made from boards 1" thick, dressed to about ¾". In this catalog we show some cottages with log cabin siding and some with painted cove siding, but the price list indicates the difference in cost for whichever finish you choose. When cove siding is ordered we send paint, oil and turpentine for two good coats outside.

READY-CUT FRAMING

All Framing Material studs and plates, headers, etc., are ready-cut to fit. Plans show where each piece is to be used.

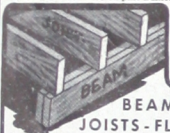

WINDOWS

All windows supplied with glass ready putted in. Sash made of pine 1 1/2" thick, treated for rot and painted one coat.

OVERALL SCREENS

We send ready-made Screens for windows, strongly made with galvanized screen wire on pine frame.

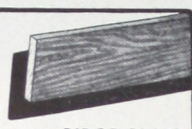

BEAMS JOISTS - FLOORS

All Floor Joists are sent ready-cut to length; we also send material for main Beams. (No floor beams required for small cabins). Smoothly machined, tongued and grooved flooring supplied.

RAFTERS CUT TO FIT

All rafters are accurately cut to length and notched to fit wall plate. Rafter ties are supplied to strengthen the roof. Roof framing plans show how and where each piece is used.

RIDGE PLATE

The ridge plate is sent in one or more lengths to be built up to full length of ridge.

TONGUED AND GROOVED ROOF BOARDS

Tongued and grooved roof boards make a tight roof and present a clean smooth appearance from inside.

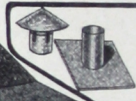

FIRE-SAFE COLORED ROOFING

Best quality, mineral surfaced roll roofing with nails, cement and directions. Your choice of red or green colors.

DOORS

Outside doors as shown in pictures always sent also screen doors supplied for each outside doorway.

METAL ROOF PIPE

We send a metal roof pipe with cap and collar to fit slope of roof. Not sent with small cabins.

SIDING

LOG CABIN SIDING
COVE SIDING

Your choice of distinctive, red cedar "log cabin" siding, or matched cove siding. See page 1.

METAL FLASHING OVER WINDOWS

FACIA BOARD WHERE SHOWN

VERANDA POSTS

VERANDA MATERIALS

We send ready-cut framing material, also posts, railings, etc., to build veranda as in picture of cottage chosen.

ABOUT STEPS

Because Summer Cottages are usually built on uneven ground we do not include the cost of steps in our prices. We can, however, supply ready-cut material for steps at reasonable prices if desired. See price list.

FOUNDATION

Material for foundation (posts or boulders) is usually readily available at the site. We do not send foundation posts unless ordered extra.

HARDWARE

We send rough and finish hardware as follows: rim locks and hinges for outside doors, screen door hardware, hinges and fasteners for windows, hooks and eyes for window screens, wire coat hooks, etc.; metal chimney supplied for roof except in small cabins.

SPIKES AND NAILS

A plentiful supply of nails of various sizes and kinds is always sent, also spikes needed for the heavy framing work.

PAINT

We send your choice of paint or stain for all outside woodwork, also linseed oil and turps for thinning first coat. Porch paint sent for veranda floors. See details in price list.

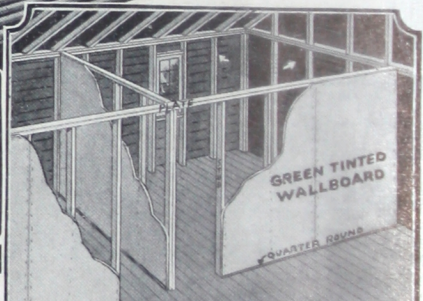

ONE LOW PRICE BRINGS ALL

FREIGHT PAID
TAX FREE

One simple order, one low price brings everything to build your Halliday Ready-Cut Summer Cottage above the foundation. Simply decide on the cottage that suits your requirements, choose your method of payment, and send us your order using the order form on back of price list for convenience. We guarantee to send sufficient of all materials, as described here, to finish the cottage of your choice AS PICTURED, even to the window and door screens and a metal chimney pipe for the roof. You take no risk, our plans and material lists are prepared by experts, if anything is short we make it good without extra cost to you.

Mr. R. H. House writes: "There was plenty of material and we appreciate the thorough way in which you sent our Nipigon Cottage."

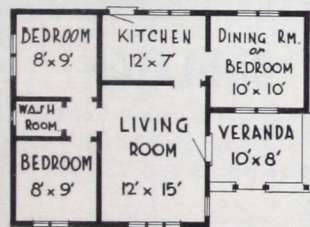

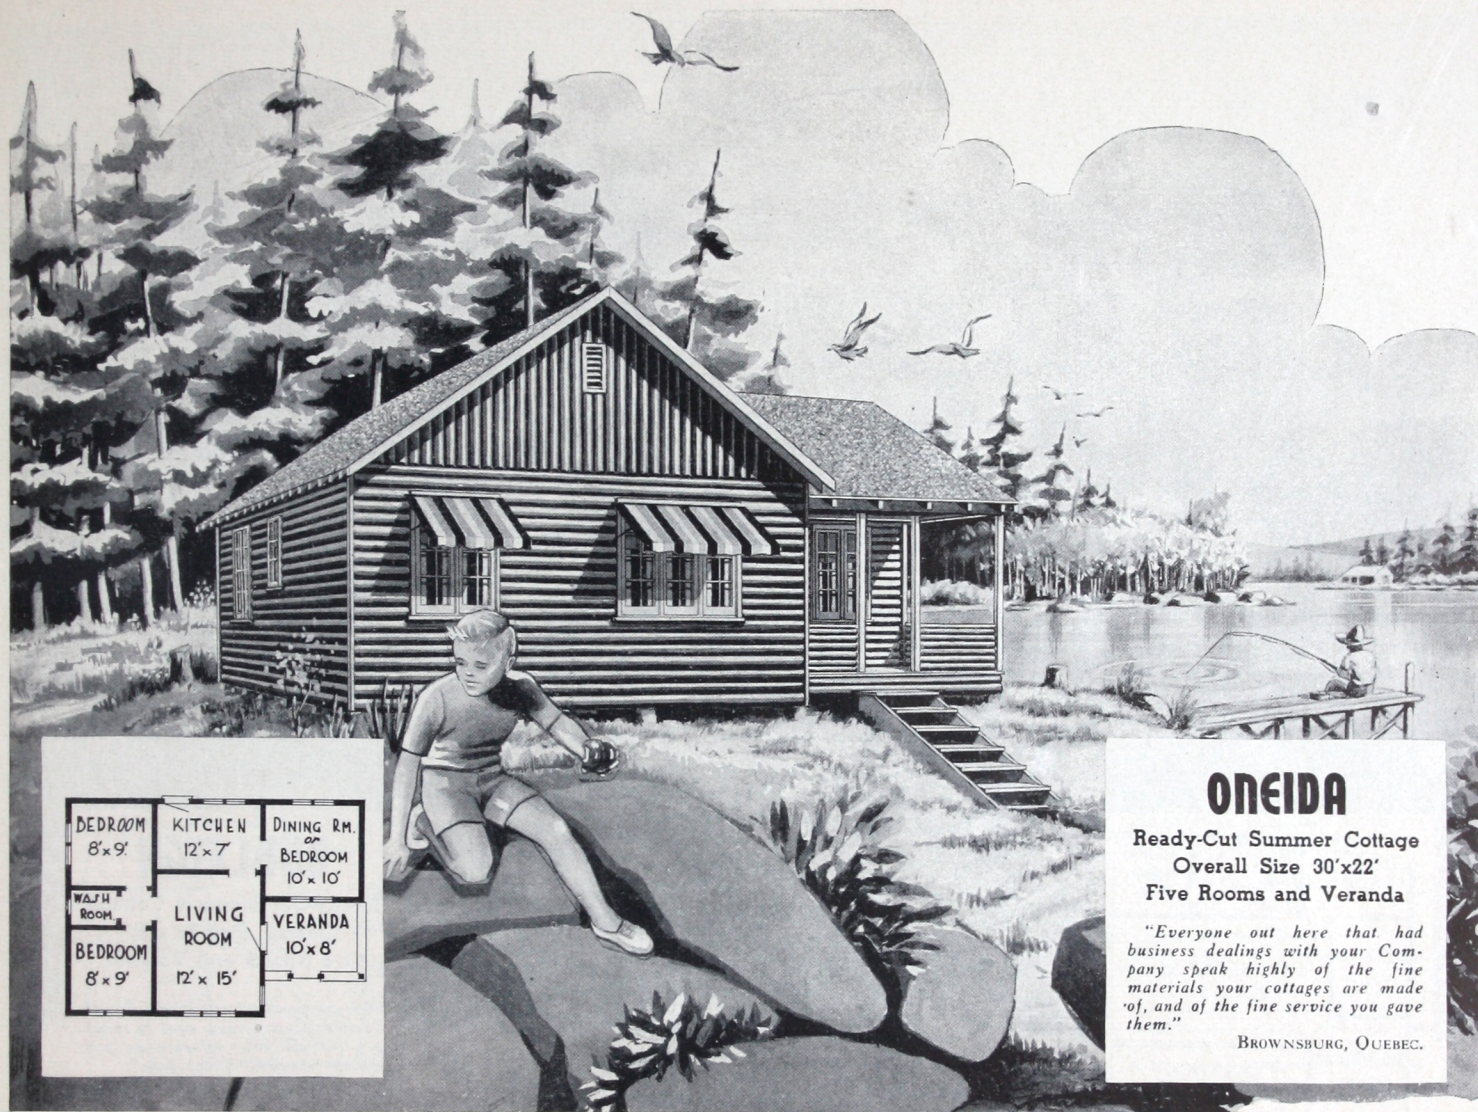

The picture above is designed to illustrate clearly what we send. For further details read "What you get" in price list.

GREEN TINTED WALLBOARD

INSIDE PARTITIONS READY-CUT

Where inside rooms are shown in floor plans, we send ready-cut studs and headers for all inside walls, to build partitions to height of main walls. Green tinted wallboard is supplied to close in partitions for one side of studs only. All inside rooms are open to the roof as shown. No doors sent for inside as curtains are commonly used.

POPULAR RUSTIC CABINS READY-CUT

These attractive Cabins are designed to provide low cost accommodation for private use or for tourist camps. The cosy rustic appearance is obtained through the use of special "log cabin" siding run from inch boards. We send stain to finish the walls outside and paint for trimming. The flower boxes and trellis shown are included in our prices, also screens for windows and doors.

The larger double Cabin is divided into two individual rooms, each with a separate entrance. The smaller one has one room with shaded porch. For prices and terms see price list.
